

It's not just an  
Energy Star® home  
you're building.

It's also your business.

Every house you build says something about you. So why not build one that says all the right things? An energy-efficient Energy Star home. Build a reputation for quality and value by offering your customers a comfortable home that not only saves them 10 to 15 percent on monthly energy bills, but also helps improve the environment. And all the energy expertise you need to build an Energy Star home is free. Call 1-800-228-7764 for more information.

The energy of Connecticut
